

ARISTADA MADE SIMPLE

A patient guide to long-acting aripiprazole lauroxil

Know your exact injection interval and initiation plan. Aristada and Aristada Initio are not interchangeable products.

1

KNOW THE INTERVAL

Your dose may be every 4, 6, or 8 weeks.

2

COMPLETE INITIATION

Start may require 21 days of oral aripiprazole or an Initio-based plan.

3

DO NOT CONFUSE

Aristada Initio is only for initiation or certain restart plans.

4

CALL IF LATE

Missed-dose instructions depend on dose and elapsed time.

5

WATCH IMPULSES

Report new uncontrollable gambling, shopping, eating, or sexual urges.

6

URGENT SIGNS

High fever, rigid muscles, confusion, fainting, or severe allergy needs urgent care.

YOUR ARISTADA PLAN

- My Aristada dose: _____
- My interval: every ____ weeks
- My initiation plan: _____
- My next appointment: _____
- If late: call before any restart injection or oral medicine.

IMPORTANT SAFETY REMINDERS

- Report restlessness, stiffness, tremor, or uncontrolled movements.
- Track weight, glucose, cholesterol, sleep, and mood.
- Avoid overheating and dehydration.
- Do not drive until you know how treatment affects you.

HOW FAIRVIEW HELPS

- Appointment and refill reminders
- Medication interaction review
- Side-effect and movement screening
- Cost and coverage support
- Private, nonjudgmental counseling
